## Dungeons 2 - awesome game

A Chance of Dragons - pretty weak content, three new skirmish maps with minor dragon additions, only interesting addition is the dragon boss in the third map - not worth it. Nova introdu\u00e7\u00e3o de ra\u00e7a jogavel com visual bastante atractivo. De resto nada de novo, 3 miss\u00f5es desinteressantes nas quais uma \u00e9 copia da ultima miss\u00e3o. Apesar disso vale pela nova ra\u00e7a jogavel.. Good simply if you want more skirmish maps to play on. However, if you feel you already had your fill of the game, I'd wait for something much more substantial like an expansion that has been hinted at.. If you can get it for a \$1, it's worth it. Otherwise, it's just not enough content for the price.. - can't control the creatures in your dungeon :(

- low copy of Dungeon Keeper
- the main story was very easy but A Game of Winter DLC was a very big pain and a challenge
- you gather Evilness only when destroying camps not units
- really we need adds that promotes Kalypso products in-game ??
- A Clash of Pumpkins, A Song of Sand and Fire and A Chance of Dragons DLC's are skirmish maps :(

- + A Game of Winter DLC was very nice
- + some dialogs were very funny
- + background music

If you want to kill some time is good. Just like my previous reviews of this game, the single player is a lot of fun, it\u2019s campy and entertaining.

However, also like the main game, I wish multiplayer allowed for computer opponents. In other games, I enjoy teaming up with friends to fight an AI team. We find it more fun to work as a team then try and kill each other. However you can\u2019t do that, you can only play vs other people. So my girlfriend won\u2019t play with me, lol. How to launch this addon? Bought it, but can not launch it.. I was hoping to play WITH dragons, but no this add on only add 3 new maps with new enemies, sure you fight some dragons, but I would have love to PLAY and control dragons with this! Could have been a nice new thing!

---

It was very fun while it lasted plain and simple.. Adds 3 new skirmish maps with a little extra challenge of neutral Dragons spawning. Boring and uncreative DLC.

Nothing to invest a single cent into.
